The revolutionary retrofit globe valve actuators. Suitable for your valves.

With the parameterisable globe valve actuators of the new generation you will have everything on hand that you require for the motorisation of different globe valves. You will no longer need to search for suitable adapters for installation. The revolutionary Retrofit globe valve actuators from Belimo are equipped with a universal valve neck and valve stem adapter, suitable for use with valves from a wide variety of manufacturers from around the world. With the unique universal concept, you will save time, storage space and costs. Convincing arguments!
Simple and clever universal concept.
The right actuator always at hand.

Adaptation push-button and LED status indicators
Direction of stroke switch
Slot for hand crank
Slot for auxiliary switch (optional)

Newly developed secondary gearing

New, universal valve stem adaption for third-party valves
New, universal valve neck adaption for third-party valves

**Standard actuators**

**Actuators with emergency control function (SuperCap – electronical emergency control function)**
- 3-point, AC 24 V: NVK24A-3-RE
- 3-point, AC 230 V: NVK230A-3-RE
- MP-Bus, multifunctional: NVK24A-MP-RE
- MP-Bus, multifunctional: NVK24A-MP-RE

**Actuators with short actuating time**

**Accessories**

All MP and MF types can be parameterised with the Belimo PC-Tool MFT-P or the handy Belimo service tool ZTH EU. We will be happy to provide you with any information you may need.

* for certain valves of Johnson Controls, Sauter and Siebe spacer rings must be ordered separately.
